

# Poya Organics Cosmetics

## Certified Organic, Vegan & Kosher

### Canada

*POYA Organics's approach to skincare and developing great products is to connect with nature to use the purest and most healing ingredients, rather than harsh chemicals, and our skin and hair will thank us for it.*

*With a long-standing history with ancient naturopathic practices such as Ayurveda and Aromatherapy, the founders travelled around the globe to understand the diverse therapeutic practices of various cultures and have infused this knowledge into all POYA formulations to bring you the best of the world's natural skincare to the world.*

*This is why the founders of Poya Organics scoured the planet to ethically source pure and natural ingredients from 6 continents. By using powerfully potent extracts and oils from renowned botanicals, as well as countless other wholesome ingredients, the aim was to keep POYA products simple but luxurious and effective.*

*We know you will love the POYA range as much as we do.*

*Poya is Skinimalism at the very best.*
